

## Introducing our separate Rough-in and Trim Cable-Drive<sup>®</sup> Program

### **Contractors - Eliminate costly delays on the job due to lost, stolen or damaged parts.**

Install the bath waste at the rough-in stage of the project and complete the install at the finishing stage.

### **Wholesalers - Reduce your inventory costs and speed up order fulfillment.**

Tailor your inventory levels of each Kit type and Finish based on your particular customers purchasing habits, ensuring that you have multiple options in-stock and ready to sell.
